Welcome to Season

We have really taken careful consideration to fully utilise the fantastic range of shellfish and seafood our local coastline has to offer, and we pride ourselves on ensuring its sustainability. With amazing lobsters, crabs, oysters and mussels coming fresh off the boats, directly from the quay and within minutes of the boats landing, we know what's fresh and in season.

We are proud to use multi-award winning meat supplier, Swannington Farm to Fork, who welcomed us on a visit to their farm and butchery where we instantly knew that this was the quality of the exceptionally reared meat that we had to have to compliment our offering.

For monthly wine and food events planned to celebrate Norfolk's finest producers, including our 'Celebration of the Crab Season' please check out our website and subscribe to our mailing list for exclusive emails informing you of our exciting events.

We also love Twitter and Facebook, so please say hello there too.
